

## Subject index

### A

Abortion, mortalities with, 8  
Antenatal fetal assessment, simplified form of cardiotocography for, 191  
Australia, Sydney, Vietnamese women's attitudes to baby feeding practices before and after immigration to, 103

### C

Canada, rebirth of midwifery in, 159  
Cardiotocography for antenatal fetal assessment, simplified form, 191  
Certification examination in nurse-midwifery, essay, scoring and setting pass/fail standards for, 31  
Clinical experience, value to non-clinician of, 184  
Consumer, rights of, role of midwife and consumer groups as advocates for, 64

### D

Deaf, improving maternity care for, 178  
Discharge, early postpartum, *see* Postpartum period

### E

Education, pre-registration midwifery, 69  
Education material prepared for Safe Motherhood Initiative Educational Project, preliminary evaluation of, 143  
Effective care, continued use of low standards of, 157  
Essay certification examination in nurse-midwifery, scoring and setting pass/fail standards for, 31  
Examination in nurse-midwifery, essay certification, scoring and setting pass/fail standards for, 31

### F

Feeding (of baby), Vietnamese women's attitudes to, before and after immigration to Sydney (Australia), 103  
Fetal antenatal assessment, simplified form of cardiotocography for, 191

### H

Hearing-impaired, improving maternity care for, 178  
Heart monitoring, simplified form for antenatal fetal assessment, 191  
Hospital stays, shorter, *see* Postpartum period

### I

Ineffective care, continued use of, 157

### L

Labour, obstructed, maternal mortality due to, 3

### M

Maternal issues, *see* Mother  
Midwives as their own worst enemies, 12  
Mortality, maternal  
    abortion causing, 8  
    obstructed labour causing, 3  
Mother  
    fetal movement counting by, as measure of fetal well-being, 54  
    mortality, *see* Mortality  
Muslim Pakistani families in Britain, birth outcome in, reconsideration of factors affecting, 76

### N

North Staffordshire Maternity Hospital, temperature changes during first day of life in, 82  
Nurse-midwifery, essay certification examination in, scoring and setting pass/fail standards for, 31

### O

Obstructed labour, maternal mortality due to, 3

### P

Pain, perineal, postpartum, impact of research findings on current practice in relieving, in a large district hospital, 125  
Muslim Pakistani families in Britain, birth outcome in, reconsideration of factors affecting, 76  
Perineal pain, postpartum, impact of research findings on current practice in relieving, in a large district hospital, 125  
Postpartum period  
    early discharge (shorter stay in hospital) as alternative to traditional hospital care, 132  
    fears about, 170  
    perineal pain during, impact of research findings on current practice in relieving, in a large district hospital, 125  
Pregnancy, smoking in, behavioural change approaches to, 19
